

ZARIN SOLANKI

UX Researcher | AI Product Designer | Design Engineer

+91-7666757809 | zarinsolanki.work@gmail.com | [linkedin.com/in/zarin-solanki](https://www.linkedin.com/in/zarin-solanki) | <https://zarin071.github.io/zarin-portfolio>

PROFILE

Design-engineer hybrid with over 10 years of experience spanning UX design, front-end development, and AI product design across global B2B and B2C platforms. Currently working as a Senior Product Designer and Capability Lead at bp, driving design maturity across India and global hubs, leading enterprise design system rebranding, and upskilling designers globally. Brings deep expertise in front-end development (HTML, CSS, JavaScript, React) combined with strong UX craft including research, interaction design, and design systems. Actively building skills in LLM prompting, generative AI integration, and AI-powered prototyping. Proven track record of measurable business impact, award-winning design execution, and cross-functional collaboration with product, engineering, and business stakeholders.

CORE SKILLS

Design and UX Engineering: Interaction Design, UX Engineering, Prototyping (High and Low Fidelity), Design Systems, Animation and Micro-interactions, Responsive and Adaptive UI, Accessibility (WCAG)

AI and Emerging Technologies: Claude, cursor - production-grade code and rapid prototyping, Generative AI Product Design, AI-Powered Prototyping, Framer AI

Front-End Development: HTML5, CSS3, JavaScript (ES6+), React

Design Tools: Figma, Framer, Webflow, Sketch, Axure, Miro, Notion, Zeplin

Collaboration and Strategy: Jira, Confluence, Git, User Research, Usability Testing, A/B Testing, UX Strategy, Design Sprints, Agile and Scrum, Stakeholder Communication, Storybook

EXPERIENCE

Senior Product Designer - Capability Lead and Design Engineering

Sep 2025 - Present

bp | India / Global

- Lead the design capability function within bp's India hub and across global teams, defining best practices, establishing design frameworks, and setting the strategic vision for design maturity and skill development across the organisation.
- Mentor and upskill product designers across levels, lead talent acquisition efforts to grow the design team, and foster a collaborative culture of innovation and continuous learning.
- Led the end-to-end rebranding of bpcore, bp's enterprise design system, as design engineering lead; aligned the system to updated brand guidelines, refined the style guide, and migrated the typeface from Roboto to BP Sans, enabling practitioners globally to adopt the new brand consistently.
- Helped practitioners partner with product managers, engineers, and business leaders to embed design strategy into organisational goals, ensuring design scalability and consistency across global markets.
- Designed and developed bp's internal SharePoint site for the Product and Projects Hub, a centralised platform that helps practitioners across product management, project management, business analysis, and service design access increased community engagement, connect with global discipline leads, efficient onboarding for new joiners, and build skills for future development and assessment.

Assistant Manager - User Interface and Front-End Development

Oct 2020 - Aug 2025

Michelin India Pvt Ltd | Pune, India

- Drove measurable improvements in user engagement on B2C landing pages for Michelin lifestyle products through research-informed design iteration, including user testing, UX audits, and structured A/B experimentation.
- Designed and shipped AI-enhanced B2B platform features for CO2 reduction and fuel savings tools, improving user retention by redesigning end-to-end journeys and applying data-driven UI principles across design, data science, and engineering workstreams. (<https://b2b.michelin.in/fuel-saving-calculator>)
- Contributed as a conversational designer to introduce a generative AI-powered chatbot for booking tyre change services directly, reducing friction in the customer journey and supporting the sale of Michelin lifestyle products.

- Championed the idea with the head of design to consolidate all Michelin websites under one umbrella (<https://pro.michelin.com/>)
- Built and maintained a reusable design system and component library that reduced design-to-development handoff time by 30% and accelerated delivery of new product features.
- Significantly improved CRM dashboard engagement by redesigning complex data visualisations within Salesforce-based tools, applying research synthesis and iterative prototyping to make high-density information accessible to non-technical users.
- Collaborated with UX researchers on information architecture for Salesforce dashboards, synthesising qualitative and quantitative user insights to guide design decisions.
- Led award-winning website design initiatives that earned the Michelin Champions Award (2022 and 2023)

Software Developer - UI/UX Design and Front-End Development

Nov 2017 - May 2020

[Packt Publishing Pvt Ltd](#) | [Mumbai, India](#)

- Designed and implemented production-ready user interfaces using HTML, CSS, JavaScript, and React, taking full ownership of work from wireframe through to deployed code and reducing handoff friction between design and engineering.
- Delivered high-fidelity and low-fidelity prototypes grounded in user research and business requirements, demonstrating precision in visual design and interaction craft.
- Conducted A/B testing and usability analysis, incorporating workshop feedback to refine user flows and interaction patterns across web products iteratively.
- Collaborated with stakeholders to define site information architecture and design end-to-end user journeys for content-rich web properties.
- Improved conversion rates and user engagement across key web properties through a combination of interaction design improvements and front-end implementation.

Assistant Systems Engineer

Sep 2015 - Nov 2017

[Tata Consultancy Services](#) | [Mumbai, India](#)

- Contributed to enterprise product development cycles by translating client feedback into UX and functional improvements for business-critical applications.
- Created process documentation and application flowcharts to support design clarity and alignment across complex enterprise systems.
- Delivered internal product demos and usability walkthroughs, developing strong design communication and stakeholder presentation skills.

EDUCATION

Bachelor of Engineering - Electronics and Telecommunications

2011 - 2015

[M.H. Saboo Siddik College of Engineering, Mumbai, India](#)

CERTIFICATIONS AND AWARDS

- Product Design in AI - Udemy
- Object-Oriented UX Fundamentals - Udemy
- Figma UI/UX Design Essentials - Udemy
- Webflow Certified Developer - Webflow
- Champions Award - B2C Websites, Michelin (2022 and 2023)
- Go-Getter Award - B2B Website, Michelin
